

INSTALLING WPCLI

Download wpcli to your home directory

```
curl -O https://raw.githubusercontent.com/wp-cli/builds/gh-pages/phar/wp-cli.phar
```

URL:

<https://raw.githubusercontent.com/wp-cli/builds/gh-pages/phar/wp-cli.phar>

Please refer to the video lectures for the steps outlined below

1. Give wpcli executable permissions
2. Move wpcli into path
3. Test wpcli installation
